LLOYD SPECIALISED COATINGS

EXECUTIVE OVERVIEW

Lloyd Specialised Coatings provides professional protective and specialty coating services across Queensland. Since 2018, we've grown from a local business into a trusted contractor working in complex, high-risk industrial and commercial environments.

We specialise in coating systems that protect valuable assets, improve safety, and meet strict compliance requirements. Our team is experienced in working on live sites, staged construction programs, and shutdown works – always with a focus on minimising disruption and delivering consistent results.

Whether it's a food production facility, council site, workshop, utility sites/services or commercial development, we bring a practical, methodical approach and a commitment to doing the job properly.

OUR SPECIALTIES:

- ◆ **Industrial and commercial coatings**
 - Durable, high-performance finishes built to last in demanding environments
- ◆ **Protective coatings and asset preservation**
 - Extending asset life while meeting compliance standards
- ◆ **Surface preparation and application**
 - Thorough preparation for long-lasting results
- ◆ **Live site and shutdown works**
 - Experienced crews who work safely and efficiently around operations
- ◆ **Queensland and Northern NSW-wide mobilisation**
 - Scalable teams and equipment ready for regional and multi-site projects
- ◆ **Preventative maintenance**
- ◆ **Mobile surface prep and coat package**

LLLOYD SPECIALISED COATINGS

WHAT SETS US APART:

◆ **Safety first, always**

- We use strong WHS systems and well-trained crews who have been comprehensively trained to comply with industry standards.

◆ **Consistent quality**

- We use proven processes and inspections with great attention to detail that allows us to provide consistent, high-quality results.

◆ **Reliable scheduling**

- We coordinate closely with project teams TO ENSURE WE STAY ON TRACK AND DELIVER ON TIME, every time.

◆ **Skilled, experienced people**

- Our teams are highly capable across commercial, industrial, and high-risk environments.

◆ **Clear communication**

- We provide professional reporting and straightforward coordination with contractors and stakeholders on every job.

ABOUT US

Lloyd Specialised Coatings is a Queensland-based contractor specialising in premium industrial and commercial coating solutions. Since 2018, we've grown from a small local operation into a well-established business trusted to deliver complex coating projects across a wide range of environments.

We work across diverse industries including food production, education, council facilities, industrial workshops, and commercial developments, providing coating systems that are built to last.

This depth of knowledge combined with 45 years of combined industry experience helps us choose the right systems for each site, ensuring safety, compliance, and performance standards are always met.

Our crews are experienced in working within live operational facilities, staged construction sites, and shutdown windows. As well, we work closely and efficiently with builders, project teams and on-site staff to keep everything running smoothly. With disciplined preparation, structured processes, and a strong understanding of site requirements, we deliver high-quality outcomes with minimal disruption.

Based in Toowoomba, we service projects across Queensland and northern NSW, including regional and remote locations, with the same commitment to professionalism, reliability, and workmanship that we've had right from the start.

Specialised Asset Protection.

LLOYD
SPECIAL
COATINGS

CORE CAPABILITIES

CHEMICAL BUND COATINGS

We deliver high-performance chemical bund coating systems designed for strict regulatory environments. Our coatings protect structures from chemical exposure, reduce environmental risk, and support long-term compliance.

Client benefit: Safer sites, stronger protection, and reduced maintenance over time.

ABATTOIR MAINTENANCE

Lloyd Specialised Coatings provides specialist maintenance services for abattoirs, including hygienic coatings, floor repairs, and asset preservation works. We're experienced in working safely within live production environments to minimise downtime.

Client benefit: Facilities stay compliant, operational, and safe for staff.

EPOXY PROTECTIVE COATINGS

Our epoxy flooring and protective coating systems are built for durability, chemical resistance, and slip safety. Each solution is tailored to suit the demands of the site and its daily operations.

Client benefit: Lower maintenance costs, improved safety, and longer-lasting surfaces.

REPAIRS AND MAINTENANCE

We provide ongoing repair and maintenance services to extend the life of industrial and commercial assets. From surface remediation through to protective coating restoration, we complete work efficiently and with minimal disruption.

Client benefit: Assets are protected, downtime is reduced, and value is preserved.

SEAMLESS FLOORS AND COVING

We install seamless flooring systems and precision coving for laboratories, food production, and hygiene-critical environments. These systems improve cleanability, reduce contamination risk, and meet strict health and safety standards.

Client benefit: Cleaner, safer, more durable facilities.

PROTECTIVE COATINGS (SAFETY AND CHEMICAL RESISTANT)

We apply a wide range of protective coating systems designed to withstand wear, chemical exposure, and harsh operational conditions. Our work is supported by quality processes to ensure long-term performance.

Client benefit: Reliable protection, safer work environments, and reduced long-term costs.

MOBILE SURFACE PREP AND COAT PACKAGE

Lloyd Specialised Coatings provides a complete surface preparation and coating package for industrial and commercial sites. Our team will sandblast on site and prepare the surface, then apply the specialised coating system required for lasting protection, performance and compliance.

Client benefit: A coordinated process that improves quality control and creates the right foundation for stronger adhesion.

AFTER

SAFETY, QUALITY AND WORKFORCE CAPABILITY

SAFETY AND COMPLIANCE

Safety is at the centre of everything we do. Lloyd Specialised Coatings works to strict WHS legislation, industry standards, and client-specific site requirements. Our crews are trained in hazard awareness, risk control, and safe work practices. We ensure:

- ◆ WHS systems aligned with Australian standards
- ◆ Site-specific Safe Work Method Statements (SWMS) developed for all tasks
- ◆ Smooth integration with client and contractor safety frameworks

QUALITY ASSURANCE

Our structured processes ensure every project meets specification, performance requirements, and compliance expectations, through:

- ◆ Stage-by-stage inspections throughout delivery
- ◆ Use of approved products and proven application methods
- ◆ Full documentation, reporting, and transparency

TRAINING AND WORKFORCE CAPABILITY

Our team is experienced, qualified, and committed to ongoing development. All our staff undertake:

- ◆ Continuous technical training in coatings and surface preparation
- ◆ Regular safety training, including chemical handling and emergency response
- ◆ Professional development to maintain best-practice standards
